EXPERIENCE:

- ANS Group Limited, Software Engineer (August 2022 – Present)
- 2+ years at Nawal Global Systems (Pvt) Ltd., Software Engineer (July 2020 – August 2022)
- 3 month internship at Iplex (June 2019 – August 2019)

SKILLS:

- Laravel, PHP
- Javascript, Vue.js
- React.js
- Tailwind, Bootstrap
- MySQL, SQLite
- Docker
- Git
- Agile Methodology
- Unit & Integration Testing

PROJECTS:

Project Name: Commvault

Period: August 2022 – Present.

Environment: *PHP, Laravel, Vue.js, Tailwind, MySQL, REST APIs, CI-CD, Gitlab*

Description:

- Automated configuration of existing servers.
- Developed a system to assist engineers in managing hosting servers using Commvault.
- Implemented a system enabling engineers to analyze and monitor servers and customer data through Commvault.

Responsibilities:

- Conducting a code review of other developer's work to ensure coding standards are being followed and that the code is well-structured and documented.
- Creating a detailed and well-structured UAT plan for QA testing. This plan should cover all of the necessary tests to ensure that the API meets the desired requirements and functions correctly.
- Employing test-driven development techniques to test the API for all possible scenarios. This will help ensure that the tests are comprehensive and reliable.
- Writing clean, commented code that is easily understandable. This is especially important when dealing with complex business logic, as it will make it easier for others to understand the code later on.

Project Name: Disc Plus

Period: December 2020 – June 2022.

Environment: *PHP, Laravel, Bootstrap, MySQL, REST APIs, CI-CD, Github*

Description:

- A business support system for a service provider company.

- Developed a system to assess and analyze individual personalities by performing a test.

Responsibilities:

- Conducting a code review of other developer's work to ensure coding standards are being followed and that the code is well-structured and documented.
- Creating a detailed and well-structured UAT plan for QA testing. This plan should cover all of the necessary tests to ensure that the project meets the desired requirements and functions correctly.
- Employing test-driven development techniques to test the product for all possible scenarios. This will help ensure that the tests are comprehensive and reliable.
- Writing clean, commented code that is easily understandable. This is especially important when dealing with complex business logic, as it will make it easier for others to understand the code later on.

Project Name: Giga Bite

Period: November 2021 – July 2022.

Environment: *PHP, Laravel, Bootstrap, MySQL,Git*

Description:

- Giga bite is a cutting edge CRM developed for call center operations.
- Developed a system to track the number of leads.
- Implemented a system for managing venders and agents data
- Implemented a system for report generation.

Responsibilities:

- A code review should be conducted to ensure that the code follows coding standards, is well-structured, and documented.
- A detailed and structured UAT plan must be created to cover all necessary tests to ensure that the API functions correctly and meets the desired requirements.
- Test-driven development techniques should be employed to test the API for all possible scenarios, making the tests comprehensive and reliable.
- Writing clean, well-commented code is essential, particularly when dealing with complex business logic, to facilitate understanding by others in the future.

Other Projects:

- VBC Digital (PHP, Laravel , Bootstrap, MySQL, REST APIs, Github)
- Luna Wellbeing (PHP, Laravel, Bootstrap, MySQL, Github, Stripe)
- BioSynergy Health Technology(PHP, Laravel, Bootstrap, MySQL, REST APIs, Github)
- Chrystal Executive Travel (PHP, Laravel, Bootstrap, MySQL, Github)
- M.E Consulting(PHP, Laravel, Bootstrap, MySQL, Github)
- Weenie Fiat (PHP, Laravel, Bootstrap, MySQL, Github)
- Reselient Health (Wordpress)
- Antiaging (Wordpress)
- Scitech International (Wordpress)
- Al Rehman Quran Academy (Wordpress)
- Online Product Sourcing to Local Shops(PHP, Laravel, Bootstrap, Rest Api's, MySQL, Github, React native Expo)

EDUCATION:

- (September 2018 - June 2022) BS in Computer Science from Air University Islamabad.

CERTIFICATION:

- JAVASCRIPT INTERMEDIATE, Certified by Hacker Rank, ID (0D9CD8DF95DB) (March 2023)
